On a recent trip to Ohio while making contacts as admissions coordinator, Walter Swere '68 had fellowship with alumna Andrew Bauder, a Christian education major who graduated in 1974. Their conversation reminded Mr. Seera that while he was dean of students a few years ago, one of the young men in his charge was a college-age Jonah. Of course, that wasn't his given name nor had he hit the TV newsbreak as being a person who

had admissions coordinator, Waiter Seera '68 had fellowship allowing attitudes to manipulate his mindset into

"runnel vision": he could see only his own methods and

was spewed from the mouth of a big fish on some exotic

shore. As a matter of fact, these living around him on

Bryan's campus were unaware that this nice guy was allowing attitudes to manipulate his mindset into "tuned vision": he could see only his own methods and means as he struggled to find a goal in life.

Here is Drew's own story of his heart experiences at Bryan that prepared him eventually for a successful ministry in the Market Street Baptist Church in Zanes-

Life has been a series of doors opening and closing through which the Lord has been directing my life. Opportunities presented themselves in such a way that

weeks of eagerly awaiting a reply to my applications, I

produced the "typical Bryan alumnus," of which I

would never run from Him again. Then answers came to

my questions. The Lord had opened the door to the future and to

the Lord had ruined my college life. I decided to

and that I would like to come back. The answer

was different than what I had expected; I was told that

that the Lord would let me know after they had prayed and

discussed the possibilities. My heart was filled with the

reality that God was going to open the door again. The

next morning I received a call from Mr. Seera telling me they had decided to readmit me.

I left my job and was back to Bryan in less than a

To Bryan's student recruitment department is eager to make contact with every Christian high school in the U.S. and abroad. Help them get the fullest picture of Bryan. For our lists, we do not have all the information we need and we do not even know of the existence of some. Bryan alumni and other readers of THE BRYANITE can help bring us up to date on needed information about Christian high schools.

Here is a method that takes a minimum of time and expense. Would you try it and send us the results whether or not you get all the answers to the suggested questions?

A. In the Yellow Pages of the telephone directory from the classification Schools, make a list of Christian secondary schools.

B. Cell each of these Christian schools and academies for the following information:

1. How many students? Does the school grades the school currently have?

2. Does the school use a "traditional" curriculum or does it use the Accelerated Christian Education (ACE) program or a combination of both?
